

## WATER ACTIVITIES

The Eanes CDC plans to engage in water activities during the hot summer days. To ensure the safety of all children, parent notification will be given to all families at least 24 hours in advance. Wading pools and/or sprinklers will only be used on grassy areas and not around slippery surfaces. Wading pools will have no more than 2 feet of water and the bottoms of the pools will always be visible. Parents will be expected to provide sunscreen and other equipment your child may require for water activities.
